

Potion Instructions

- Get the following ingredients: One Cherry Red apple from the tallest tree; A giant, neon green wyvern feather; A tusk from the smelliest living boar; and A cup full of frog eyes.
- Now get the following items: A bunsen burner; A whisk; A Conical Flask; A bowl; A sieve; and A blood red butchers knife.
- First, cut up the apple with the blood red butchers knife precisely into 7 equal slices.
- Secondly, take your 7 apple slices and place them carefully inside of your bowl with the frog eyes.
- Next, snap your boar tusk into two pieces and place them in the bowl, now you can whisk all the ingredients together.
- Following a good mix together, you now need to strain the liquid obtained from the mixture using your sieve into the conical flask, and discard the squishy mush that's left in the sieve.
- Now use the bunsen burner, underneath the conical flask to warm the mixture up. Stir at all times using the Wyvern Feather.
- Now you have created the potion.
