

1. Cat flap - this is extremely important because my cat (Charlie) follows me everywhere.

2. Swing - I love swings and they aren't open in the park, so why not have one at home, don't worry it's very safe!

3. Rock climbing wall - I didn't want a boring old ladder so I thought this would be perfect!

4. Wooden walls - with some help from my friends we managed to collect old scraps of wood and enough pallets to do the house.

5. Window - this is incredibly important so we can keep a lookout for when we have water fights.

6. The roof - I spent alot of time on the roof so it could stay on when it's windy and keep the rain out.

7. The tree - I decided to use this tree because of the strong branches.

8. The door - My dad was throwing away an old wooden ~~ext~~ cupboard and let me use the door, it's great because it's got a key, lock and a handle.
